### **Additional Opportunities to Provide Feedback on Recreation Center**

*CASA GRANDE, AZ*— The City of Casa Grande has confirmed three community meetings for residents to provide feedback on the proposed Community Recreation Center. These meetings are one component of a comprehensive outreach strategy being implemented by the City to identify the public's desired programming and features for the proposed facility.

In addition to the outreach booths stationed at local events, the City will be hosting three community meetings throughout October and November. These meetings will consist of a brief presentation by the City and design specialists, Architekton, followed by the opportunity for the public to share their thoughts and questions.

Beginning mid-October, static displays containing sample photographs of potential amenities will also be made available at both City libraries. Accompanying these displays will be a short video inviting the public's input through participation in the online survey located on the City website.

The City is committed to ensuring that the community's voice is heard throughout this process, and is encouraging participation in these upcoming outreach events:
