Notes:

- 1 Pricing for items 1 - 33 shall include all equipment, labor, and materials necessary for normal cleaning; this shall include up to two (2) passes with a jetter only.
- 2 Pricing for items 34 - 43 shall include all equipment, labor, and materials necessary for cleaning - including any safety measures the Contractor feels are necessary to safely perform the work.
- 3 Pricing for item 49 shall include all equipment, labor, and materials necessary to provide CCTV inspection of up to 10% of the lines cleaned by Contractor. Any re-work required due to unacceptable inspection shall be performed at the sole cost of the contractor with no additional payment to be made by the City.
- 4 City shall obtain, and pay all costs, for water meters from Arizona Water Company (AWC). Contractor shall be responsible for coordinating location and relocation of meters directly with AWC.
- 5 City shall provide local disposal at the WRF and cover all costs.
- 6 Contractor shall be responsible to obtain a tablet suitable for use in data collection utilizing the City's on-line GIS mapping system. Contractor shall be responsible for entering all requested data daily for each task completed for each pipe/manhole on a daily basis. Costs for providing this equipment and labor shall be included in the above pricing.
